Provision.

Last Monday night was the time fixed by law for the regular monthly meeting of the Board of Education. Upon that occasion it was supposed the retiring board, after the completion of unfinished business, there being no quorum of the old, as well as no quorum of the new board, all the proceedings which took place are irregular and void. Proceedings in quo warranto, in the name of the Attorney General having been commenced, questioning the right of S. F. Seiver and Thomas White to serve as members from the county district, and a restraining order having been granted by Judge Lamphie, preventing them from acting as such members until the quo warranto should be decided. Seiver and White did not attempt to take their places upon the board. The day set for the trial of the quo warranto is June 6th. There were only five members present at the Monday night's meeting, which in view of both White and Seiver having certificates of election, and Judge Thompson's decision on the previous injunction case, makes them members until the quo warranto proceedings are decided. Consequently a quorum of the board is six—and there was no quorum Monday night. To say the least it required a good deal of gall to attempt any kind of an organization under such a condition of things. If the quo warranto should be decided in favor of White and Seiver, everything done at Monday night's meeting, or any future meeting until June 6th, is illegal and void. And we are of opinion that the proceedings will be illegal anyway, no matter how the June 6th case turns out. At Monday night's meeting the following officers were elected illegally: C. G. Willmarth, President, and E. L. Bishop, Vice-President. They each received five votes—not a quorum; and were compelled to vote for themselves even to get the necessary votes under their own claim of a quorum. But it was the height of impudence to vote for W. B. Flanders for clerk, who was not even a member of the board, and had been beaten in the election for the position by ninety-seven majority. F. L. Weaver had the good sense to protest against this high-handed action, and Flanders did not even get a majority of the votes under the illegal quorum. The subsequent action in allowing bills, appointing committees, etc., is illegal, and will be of no avail. Teachers employed, will, of course, have no right to their places, and such contracts will finally be annulled. We understand that on Saturday evening this guest board will attempt to employ teachers. If they have any right or justice on their side in their claim with reference to the illegality of Seiver and White sitting as members, why the indecent haste in attempted organization and employment of teachers? Their rights would not suffer if all proceedings were delayed until the determination of the quo warranto suit. If their position is not tenable, the whole organization, allowance of bills, employment of teachers, etc., will all have to be done over again, and their former action annulled—thus making expense, much blood and an interminable quarrel. These men are not even upheld by their friends in this building over action, and there is created the general impression that they are actuated more by prejudice, gall, and narrow-mindedness than desire to act for the best interests of the city schools.

The Thomas (W. T.) New (Dem) gives Tom Cavanaugh the following notice:

The Hon. Tom Cavanaugh, like his cousin friend Colonel Owens, "has all right," and returns from a pilgrimage to the republican Mecca as well satisfied as was the colonel, after an interview with the chief executive's sole "leather," that "me and the president" are on the "best of terms." Brother Cavanaugh is mildly enthusiastic over his prospects for being the next surveyor general of this territory. No one is better qualified, perhaps, for the position—under a republican administration. Mr. Cavanaugh is a link in the chain that binds the present to the past, and as one of the representatives of the old and now nearly obsolete regime would perhaps illuminate the side to which he belongs, if he were to take part in the other grand old party war. Here's a boost for Mr. Cavanaugh.

The concert at the Baptist church, the selection of last Thursday evening for the concert at the Baptist church was a fortunate one in point of agreeable weather. The church was filled with an audience of those ladies and gentlemen who are noted for their knowledge of good music. The concert was under the direction of Prof. Henry Yang, who made all his appointments with the best results, and the fullest satisfaction was given in every detail. The professor but added to his renown in catering successfully to the music loving people of Salina. The opening piece, an overture to William Tell, a piano duet by Miss Tina Flanders and George Lill, was produced with admirable effect. Miss Edith Seaver followed with the song, "Wild and Sweet," and was loudly applauded. Miss Grace Probert gave the recitation of "Flying Jim's Last Leap." This young lady who during the past winter has several times delighted Salina audiences with her splendid recitative power, appeared at her best Thursday night. "Flying Jim" is susceptible of great scope and she seemed to have completely mastered his many excellent recitations. Along in the evening she sang "Lullaby," and here, too, she was applauded. Joe Phillips gave a violin solo, "Fatale Caprice," and later on, the violin solo, "L'Argentine." On each occasion he was recalled. He is a grand violinist. Miss Belle Daily sang "Obe! Mamma," and so well pleased were the audience that they were not to be appeased till she returned to the stage, where in a spirit of abandon she sang "The Tale of Woe" to the amusement of not a few of the more moderate church members. The piano solo "I Partisan," by Miss Blenda Cariberg, did great credit to the exquisite touch and training and ability of this girl of thirteen years of age. Mr. C. F. Weigle rehearsed a selection from "Othello" with gratifying effect, showing fine delivery and mastery of word-carriers. Mrs. J. N. Schwartz, whose superb singing entrances the Salina audience, sang "The Rose Tree," and was recalled and gave a repetition. Little four-year-old Edna Dowling repeated "My Baby Brother," and was followed by clapping of hands. Miss Mina Hallett, who was down on the program for the cornet solo, "Little Polka," was absent from the city, and Mr. Chas. Wagstaff was substituted with the trombone solo, "Rocked in the Cradle of the Deep." For sweetness of music the piece is scarcely to be surpassed, and such contracts will finally be annulled. We understand that on Saturday evening this guest board will attempt to employ teachers. If they have any right or justice on their side in their claim with reference to the illegality of Seiver and White sitting as members, why the indecent haste in attempted organization and employment of teachers? Using the language of Hon. Martin Mohler, "there has not been a time in many years when the condition of crops, fruit, etc., has been at this date, so uniformly good throughout every portion of the state as now. About five hundred correspondents of this board, representing 108 of the 108 counties of the state, report the condition of wheat, rye, oats, grass and fruit of all kinds above the average condition for a term of years, and the indications everywhere seem to warrant the belief that the farmers generally throughout the state will reap an abundant harvest this year." There will be, within the next two months 1,336,427 acres of winter wheat harvested in Kansas. The reports to the State Board of Agriculture from correspondents in 108 of the 108 counties indicate an average yield of twenty-five bushels per acre. This is a low estimate, with favorable rains during the next thirty days the farmers of Kansas will this year harvest 35,410,675 bushels of this staple product.

The Chautauque Assembly under the auspices of the M. E. Church will meet this year at Oakland Grove Park three miles south-east of this city, instead of at Garfield Park as heretofore. A contract has been signed for the erection of new buildings, and the arrangements are made for reaching the grounds over the new Electric Rapid Transit railway. The opening of the assembly is June 25, the meeting to continue till July 4th. A large sum will be expended in fitting up the grounds. At the previous assembly thousands of people from various sections of Kansas have attended, and this year will be no exception to that rule. The management have secured some of the ablest lecturers in the country for this meeting.

The Ottawa Assembly will open on June 18th, and close on the 20th. The management offers a programme of rare interest, and have secured some of the ablest orators of the country. "Grand Army day" will draw to Ottawa thousands of old soldiers, and John J. Ingalls will preside, and address the old veterans. Gov. Lyman U. Humphrey, Hon. Henry Booth, ex-Gov. George H. Anthony and others, will be present and address the assembly.

No nomination made by a Republican convention in Kansas for years has given such universal satisfaction as that of General Harrison Kelley, the nominee for congress in the Fourth district. He has been identified with the state from its infancy, and with the Republican party since its organization. He will make a model congressman.

There is little doubt but that U. S. Marshal Jones, of Kansas, as well as Marshal Needles, of the Indian Territory, will be removed from the action of their superiors in Oklahoma. It is charged that these officials are charged with the duty of marshaling men who went into Oklahoma prior to the day of opening, for no other purpose than to secure lots and claims. A Washington dispatch to parties in Topeka states that this matter has been discussed by the cabinet, and that those officials will be invited to tender their resignations.

Hon. Jake Adams, reliever of the penitentiary, died at Fort Madison, Ind., last Saturday. Pusey will be remembered by Kansas as the defaulting chief clerk of the state penitentiary under the Glavin administration. His defaultations amounted to over \$3,000. He absconded and his whereabouts were unknown for several months, when he was arrested at Cincinnati. He was brought to Leavenworth, tried, convicted and sentenced to 3 years in the state penitentiary. His confinement shattered his health which brought about his death, but too late to save him.

The Board of penitentiary directors has been in session at Lansing several days. The most important business transacted was the letting of the coal contract. This includes the entire output of the state mine. The contract was let to E. S. Williams, of Kansas City at the following figures: 6 1/2 cents per bushel for lump and grate, 3 cents for pea, and 1 cent for slack. Six cents per bushel is the highest price paid heretofore for lump and grate coal.

The Democratic central committee, for the election by the Union Labor committee has decided to make no nomination, and it is now stated that Hon. Dave Overmyer, of Topeka, will run as an independent candidate and endeavor to corral all the opposition which fell 14,000 votes at the election by the Union Labor committee.

General Kelley's nomination has been received with satisfaction by the republicans all over the 4th district, and the election by the party majority is conceded by everybody.

Prof. C. C. Blake predicts a great crop of wheat this year. He says Kansas and western Missouri will escape but that other sections north of Kentucky and west of the river would suffer greatly. The splendid crop prospects in Kansas indicate an enormous yield, and Prof. Blake is correct, our surplus will be large.

"The Blair Educational amendment" "A return to the old fashioned Partisan Sunday laws." Rev. C. F. Mortimer will speak upon this subject next Sunday evening at the Christian church. The singing will be under the direction of Prof. Galle. Solos by Mrs. Schwartz and Miss Belle Daily.

Penny Tea.
The Auxiliary to the Y. M. C. A. is making preparation for an elaborate entertainment, to be given on the 22nd and 23rd of this month. Every effort will be made to make the Penny Show and Tea a success, socially and financially.
